

SUNKEM EXCEL PLUS

DESCRIPTION

SUNKEM EXCEL Plus is a normal setting integral waterproofing compound in liquid form based on indigenous polymer blend. EXCEL Plus is blend of specialized active ingredients to make concrete waterproof when water permeates due to hydrostatic head or capillary absorption.

USES

SUNKEM EXCEL Plus is extensively used in RCC / PCC intended for water tank, roof deck, basement, lift pit or in a situation where hydro insulation is a must.

FEATURES

- * Permeability of concrete is greatly improved.
- * Segregation and bleeding is Substantially reduced due to increased co-hesion.
- * Highly effective in reduction of permeability due to hydrostatic head or capillary action or both.
- * Increased retention property of slump.
- * Improved surface finish or concrete.

TECHNICAL DATA

Form : Liquid
Colour : Dark brown
Specific Gravity : 1.18 ± 0.02
Chloride Content : Nil

DOSE

100gm. Per 50 kg bag of cement. It should be added to the concrete mix along with gauging water.

PACKAGING

100gm, 500gm, 1kg., 5kg., 10kg, 20kg. HDPE container.

HANDLING

Non-toxic, Non-flammable, Eco-friendly. So there is no health hazard.

STORAGE / SHELF LIFE

12 months if unopened and kept in cool dry place.
